Growing Cents: Assessment Logic Matrix v1.0

This document defines the conditional dependencies, visibility rules, and workflow transitions for the Growing Cents diagnostic framework.

1. Conditional Logic & Show/Hide Rules

Field/Section	Dependency Rule	Action	Justification
:---	:---	:---	:---
Institutional Upsell	If `maturity_level` 2	Show "Elite Pro" Prompt	Targeted optimization for low-scoring nodes.
Risk Mitigation Plan	If `Governance_Score` 40%	Mandatory Field	Ensure high-risk clubs provide recovery intel.

Multi-Club Sync	If `role` == 'Regional Manager'	Show "Bulk Upload"	Administrative efficiency for cluster management.

2. Assessment Workflow Lifecycle

1. **Draft State**: Data is editable; no maturity score calculated.
2. **In Progress**: 50%+ fields completed; preliminary HUD visibility.
3. **Submitted**: Locked for standard users; "Handshake" with High Command initiated.
4. **Paid**: Subscription verified; Full Strategic Intelligence unlocked.
5. **Report Unlocked**: PDF/Expert Consultation nodes active.

3. Post-Submission Edit Rules (Grace Period)

- **Window**: 7 Days after initial submission.
- **Trigger**: "Request Unlock" button in Club Console.
- **Node**: Only editable by L4 (President) or above.

- **Logic**: Any edit resets the `reporting_date` timestamp.
