Growing Cents: Error Code Catalogue

This catalogue defines the standard HTTP response protocol for the Growing Cents API and internal micro-conts.

Code	Status	Context	Mitigation Strategy
:---	:---	:---	:---
401	Unauthorized	Invalid session or expired token	Redirect to Login Protocol with clearing state
403	Forbidden	Insufficient governance permissions (e.g., Club trying to access Admin keys)	Logic block; Log to Audit Trail for security review

404	Not Found	Entity (Assessment/Club) does not exist in nodes	Return to list view; Soft-delete check
422	Unprocessable Entity	Validation failure (Missing required diagnostic inputs)	Highlight specific nodes in UI; Prevent submission
419	Page Expired	CSRF token mismatch on AJAX/Form	Refresh session node; Re-initialize handshake
409	Conflict	Concurrent assessment edit collision	Trigger 'Grace Period' logic; Notify peer editor
504	Gateway Timeout	CDN or Downstream Database lag	Dispatch retry-loop; Render 'Delayed Intel' HUD

Endpoint Specific Anomalies

Endpoint	Potential Conflict	Error Protocol
:---	:---	:---
`/assessment/store`	Deadlock on concurrent sub-sections	409 Conflict
`/club/register`	Duplicate Institutional ID	422 (Unique Constraint)
`/subscriptions/webhook`	Invalid Payload Signature	400 (Security Rejection)
