Growing Cents: RBAC Architecture v1.0

This document outlines the 6-layer Role-Based Access Control (RBAC) architecture governing the Growing Cents ecosystem.

1. Governance Hierachy

Layer	Role	Authority Level	Primary Responsibility
:---	:---	:---	:---
L1	**Super Admin**	High Command	System-wide sovereignty, security config, global analytics
L2	**Admin Assistant**	Support Node	Operational support, user approvals, content management

L3	**Regional Manager**	Governance Node	Multi-club oversight, performance trends, compliance
L4	**Club President**	Club Command	Institutional leadership, strategic assessment oversight
L5	**Club Secretary**	Operational Node	Daily logistics, assessment data entry, member sync
L6	**Club Member**	Strategic Asset	Individual contribution, viewing personal/club roadmaps

2. Permission Matrix (Core Modules)

Module	L1	L2	L3	L4	L5	L6
